WHAT WAS IT?

A Remarkable Atmospheric Phenomenon That Visits Three Cities.

A Strange and Sudden Change That Startled the People.

DAY TURNED TO NIGHT.

The most remarkable atmospheric phenomenon ever witnessed in this locality occurred Saturday afternoon between three and four o'clock.

The day dawned unusually gloomy. A heavy smoke or mist hung over this city that almost completely shut out the rays of the sun. Heavy clouds now and then added to the gloominess of the day. In the forenoon when not obscured by these clouds, the sun appeared like a big ball of fire through the mist and smoke, and cast forth but a feeble light from its dull red rays. A rather brisk breeze was blowing from the East and South-east during the morning, but at noon the wind suddenly shifted around to the opposite direction, and the temperature began falling. The air was filled with dust and sand that was gathered up by the strong gusts of wind.

A light fall of rain and snow set in about two o'clock in the afternoon. This soon passed by, however, and the sky grew much brighter for a short period. About a quarter past three it began to grow dark. Not much attention was paid to this, however, at first, but the darkness steadily increased. At half past three, a wonderful change had taken place. The strange appearance of the sky attracted general attention. People stood on the streets and at their doors gazing at the singular coloring of the clouds, that is described as a yellowish red, tinted later with a dark greenish hue. "What's the matter?" "What do you think of it?" "What is it anyhow?" and "Is it a cyclone?" were the remarks heard on every hand. It was an awe-inspiring scene, and one that will not soon be forgotten.

But the worst and the strangest part of the phenomenon was yet to come. The dense cloud grew heavier and more impenetrable. It seemed to settle down and completely envelop the city. In a few minutes' time the change was wonderful. Complete darkness fell suddenly upon the city. The day was turned to night, and in the space of very brief period. At thirty-five minutes of four o'clock it was so dark it was difficult to recognize one's best acquaintances at the distance of only a few feet. The gas was turned on in the stores, and lamps were lighted, but business was practically suspended for the time being. Merchants and clerks stood at their doors viewing the wonderful sight. Not a few hastened homeward. Some of the more superstitious, especially among the negroes, thought the end had come, and many a prayer, no doubt, was uttered.

In the midst of the confusion and fright and when the darkness was deepest, a blinding snow storm set in. The large flakes fell fast, and the ground was soon white. Light began returning and ten or fifteen minutes later it was day once more. This remarkable atmospheric phenomenon had passed, and with it the mist or smoke that had hung over the city all day disappeared. An hour afterwards only a few clouds were to be seen and at dark the moon and stars shone out bright and beautiful from a clear sky.

All agree that the like had never been seen here before. It remains for some of the scientists and astronomers to explain what it was. It was not confined to this locality, as the following dispatches to the Cincinnati Enquirer will show:

MANCHESTER, O., November 19.—This afternoon a very heavy smoke settled down over our little city, lasting until thirty minutes after 3 o'clock, when a strange looking snow-storm swept down upon us with terrible force, accompanied with winds, the clouds resembling the approach of a destructive cyclone. Darkness began to settle down, and at ten minutes of four o'clock it was as black as midnight. The chickens all went to their roost, and the people were compelled to light their lamps. The storm lasted until half past 4 o'clock, when light was restored, and the sun once more shone forth. There was considerable excitement, and many were scared, thinking that the end of time had come. Our oldest citizens say they never saw the like before. It was a strange phenomenon.

WASHINGTON C. H., OHIO, November 19.—A remarkable phenomenon was

manifested here this afternoon, which frightened a great many persons. At 1 o'clock p. m. a snow-storm came up and it snowed vigorously. At 2 p. m. it became almost as dark as night, and it became necessary to light the gas in the lightest rooms in town. Chickens went to roost, and in one or two instances employers dismissed their hands, undoubtedly thinking that it was late in the evening.

One peculiar feature of the phenomenon was the rapidity with which the darkness dispersed, it becoming as light as day in a half-minute's time, at 2:30, after having been dark for thirty minutes.

THE LEXINGTON TRAGEDY.

More Comments of the Press About the Affair and the Participants.

The latest from Lexington is that Colonel Green was resting well Saturday night and his friends were more sanguine of a speedy recovery.

Deputy Collector Baldwin's funeral at Nicholasville Friday was one of the largest ever witnessed in Central Kentucky. There were one hundred and seventy-five buggies and carriages, and vast crowd on foot in the march to the grave.

Thomas M. Green, late editor of the Maysville Eagle, who shot and killed L. D. Baldwin, in Lexington, Ky., Wednesday, was well known in Portsmouth. Those whose memories run back to the "Know Nothing" times may recall the "boy orator" of Kentucky, who stump-ed Kentucky in the interest of the Know Nothing ticket. After filling an engagement in Springfield he was induced to cross the border and make a speech in Portsmouth, filling the court house to suffocation. He was a speaker of matchless power. That was "Tom Green." He is a polished gentleman and a man of grit.—Portsmouth, O., Times.

"Yes, I know Mr. Green very well," said Controller Durham, talking of the tragedy at Lexington and its participants to a Louisville Post correspondent at Washington City. "He lived at my town for a time and graduated at the college there, a very bright and able man, and for a long time was regarded as one of the most accomplished orators in the State. Of course," he laughed, "I was a little sorry to see him get over on the wrong side of the political fence by becoming an employee of a Republican paper; but that was his own affair. He was a quiet, peaceably disposed man, and one who commanded the respect of all who knew him."

The Louisville Post remarks that, in conversation over the Green-Baldwin tragedy, Captain Jack Gross, the United States Marshal, said: "Without desiring to offer an opinion as to the merits of the controversy which brought on the unfortunate affair, concerning which I am not informed, I hold as a general proposition that a person who will tamper with election returns is on a par with a man who will throw a bomb. Both are Anarchists. The only difference is the means employed. One uses rascality and the other dynamite. Both are aimed at the very foundation of our Government, and I am in favor of capital punishment as a remedy in both cases."

"I fought for four years to overthrow this Government, but I did it conscientiously, and I am not ashamed of the part I took, but I am glad the war resulted as it did, and I am opposed to any man who seeks to shorten by a single day the life of our Government. Its distinctive feature is the ballot, expressing the will of the people, and if that is defeated what have we but Anarchy?"

AN OCEAN HORROR.

Steamer Scholten Run Down and Sunk—One Hundred and Forty Dead and Missing.

A special to the EVENING BULLETIN says the German steamer Scholten was run down in a dense fog last Saturday night, near Dover. The ship soon went to the bottom of the sea.

Only brief particulars of the awful catastrophe are given.

The steamer's list of passengers was a large one and of these one hundred and forty are reported dead and missing.

Barnum's Show Burned.

An American Press Association special to the EVENING BULLETIN says Barnum's show was burned at Bridgeport, Conn., Saturday night.

No particulars are given.

REV. JOSEPH M. EVANS has returned from Scottsville, Allen County, where he was recently engaged in a revival meeting. The meeting resulted in an increase of the membership from six to thirty-five.

A Success in Every Way.

The beautiful cantata, "Queen of Fame," will be given at the opera house on Friday night, December 2nd. It was recently produced at Augusta and the Bracken Chronicle gives the following complimentary notice of the entertainment:

At half-past eight o'clock the curtain at the rink went up before a large and fashionable audience on an unusually grand scene representing the interior of a Temple, decorated with gay and gorgeous drapings and rugs. The Goddies sitting on her throne, gracefully descended, stepped to the front and summoned her subjects in a clear sweet tone, returning to her well appointed place, where she listened earnestly to all as they presented their merits one by one, ushered in by Hall Strode, as Page, who is a handsome little fellow and played his part well and with perfect ease.

Miss Mattie Green, as Queen Isabella, and Mrs. J. W. Fite, as Cleopatra, played the part of the generous and the beautiful Queen in a dignified and becoming way. Miss Bessie Johnson, as Hypatia, and Miss May Morgan, as Phoebe, (statuary), were so perfect a sculptor would have gladly chosen either as a model. The singing by Clara Louis Kellogg, Miss Lella Wheeler, and Christine Nilson, Mrs. C. M. Pulster, was excellent, and the audience showed their appreciation by loud and long encores. Miss Alice Higginbotham, as Grace Darling, Miss Carolyn O. Oon, as Ruth, and Miss Sue Ewing, as Marion Recamer, recited their parts exceedingly well and were "real cute." Miss Lucy Ammer, as Miriam, Miss Lizzie Moores, as Pocahontas, and Miss Nellie Patterson, as Harriet Hosmer, were so lendid, to say the least. Misses Ada and B. L. Coons, as Martha Washington and Jephtha's Daughter, were excellent. Mr. Otton, as Mother Goose, Miss Sophia Albert, as Mrs. Partington and Miss Emma Weldin, as Xanthippe, comic characters, proved themselves an agreeable change from the beautiful, the audience bestowing upon them many evidences of approval. Mr. Hal Curran, as Tabitha Primrose, played the part of a woman's rights character to perfection, and so well did he portray the rights and wrongs of woman that the audience were almost brought to "tears." The wreath-bearer, followed by the chorus of young Misses, was very pretty and sweet. The crown was awarded to Queen Isabella. Miss Lida Berry, the accompanist, is a fine performer. The costumes were hand-some and well gotten up. The cantata closed with a grand tableau, being a success in every way, and proved that Mrs. Otton had left nothing undone.

The widow of the late Ed Porter died this morning about 7 o'clock at the home of her son John Porter, on Sutton street. She had been a great sufferer for several months. The remains will be interred sometime Wednesday.

The remains of Mrs. Maria L. Granger, widow of General Gordon Granger, were interred at Lexington Friday. The deceased was a niece of Governor Letcher, and was a relative of Comptroller Durham.

MR. AND MRS. GEO. T. HUNTER'S second Saturday evening party on last Saturday night proved as pleasant and enjoyable as the initial one a week previous.

Saved His Life.

Mr. D. I. Wilcoxson, of Horse Cave, Ky., says he was, for many years, badly afflicted with phthisis, also diabetes; the pains were almost unendurable and would sometimes almost throw him into convulsions. He tried Electric Bitters and got relief from first bottle and after taking six bottles, was entirely cured, and had gained in flesh eighteen pounds. Says he positively believes he would have died, had it not been for the relief afforded by Electric Bitters. Sold at fifty cents a bottle by J. C. Pecor & Co., and S. P. Campbell & Co., of Aberdeen Ohio.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the adulterated low test, short weight, alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., 16 Wall St., New York.
